VISION 2030 JAMAICA NATIONAL DEVELOPMENT PLAN - A Strategic Framework for Balancing National Development and the Environment
OUTLINE

- Overview of Vision 2030 Jamaica National Development Plan (Vision 2030 Jamaica)
- Focus on Goals, Outcomes and Strategies directly related to achieving the balance between national development and the environment
- Your Role in achieving the Vision
TRANSFORMING OUR NATION

WHERE WE WANT TO GO

HOW WE WILL GET THERE
VISION 2030 JAMAICA
NATIONAL DEVELOPMENT PLAN

"PLANNING FOR A SECURE & PROSPEROUS FUTURE"
BUILT ON CONSULTATION
Vision 2030 Jamaica –
National Development Plan

➢ First long-term (21 year) national development plan

➢ Bipartisan support – commenced in 2006 under PNP administration, launched formally in 2007 under JLP

➢ Overall aim – to position Jamaica to achieve developed country status by 2030

➢ First year of implementation FY 2009/2010
2005 – Cabinet mandates Planning Institute of Jamaica to develop long-term sustainable development Plan

2008 - Cabinet approves draft Plan formulated by wide cross-section of people across the island

NATIONAL DEVELOPMENT PLAN

VISION 2030
JAMAICA

NATIONAL DEVELOPMENT PLAN
Planning for a secure and prosperous future

POPULAR VERSION
National Vision Statement

Jamaica, the place of choice to live, work, raise families, and do business
GUIDING PRINCIPLES

- Transparency & Accountability
- Transformational Leadership
- Partnership
- Equity
- Social Cohesion
- Sustainability: (Economic, Social, Environmental)
- Sustainable Urban & Rural Development
NATIONAL GOALS

GOAL 1
Jamaicans are empowered to achieve their fullest potential

GOAL 2
The Jamaican society is secure, cohesive, and just

GOAL 3
Jamaica's economy is prosperous

GOAL 4
Jamaica has a healthy natural environment

PLANNING AND IMPLEMENTATION FRAMEWORK

Integrated National Development Plan (National Level)

Medium-Term Socio-Economic Policy Framework (National Level)

Sector Plans (Sector Level)

Corporate, Operational Plans & Budgets of MDAs (Sector Level)

Presented by the Planning Institute of Jamaica
ACHIEVING THE BALANCE

Goals
Outcomes
Strategies
NATIONAL GOAL 4:
Jamaica has a Healthy Natural Environment

- Outcomes 13 & 14:
  - Hazard Risk Reduction & Adaptation to Climate Change
  - Sustainable Management and Use of Environmental and Natural Resources

- Sector Plans:
  - Natural Resources & Environmental Management
  - Hazard Risk Reduction & Adaptation to Climate Change
OUTCOMES 13 & 14 (Cont’d)

Sector Vision:

*We will work together to adopt and promote measures that will help develop a sustainable society, achieve and enhance a healthy natural environment in harmony with the social and economic aspirations of Jamaica*
OUTCOMES 13 & 14 (Cont’d)

❖ Sector Goals:

- Healthy, productive and biologically diverse ecosystems
- Sustainable management & utilization of natural resources
- Effective, efficient and accountable governance framework
- Culture of hazard risk reduction
STRATEGIES

- Integrate environmental issues in economic and social decision-making
  - Promote the use of new, clean technologies for all economic activities
  - Develop mechanisms that effectively integrate environmental management with urban planning and regional development

- Develop and implement mechanisms for biodiversity conservation and ecosystems management
  - Promote and coordinate research to enhance scientific understanding of ecosystems, including their economic contributions to national development
OUTCOMES 13 & 14 (Cont’d)

STRATEGIES

- Develop efficient and effective governance structure for environmental management
  - Create a dynamic and responsive regulatory environmental including review and strengthening of relevant environmental legislation
  - Strengthen the capacity of local organizations to facilitate citizen participation in sustainable management of their local natural resources

- Manage all forms of waste effectively
  - Promote awareness among the general public to influence their waste management practices
  - Create an integrated framework for the management of all types of wastes
OUTCOMES 13 & 14 (Cont’d)

➢ STRATEGIES

– Improve Resilience to all Forms of Hazards
  • Incorporate hazard risk reduction in environmental and natural resources management
  • Develop mechanisms that integrate disaster risk reduction in development planning

– Develop Measures to Adapt to Climate Change
  • Infuse climate change issues into the physical planning system

– Contribute to the Efforts to Reduce Global Rate of Climate Change
  • Promote the use of clean technologies in the manufacturing sector

7/19/2011

Presented by the Planning Institute of Jamaica
GOAL 4: OUTCOME 15

Outcome 15: Sustainable Urban and Rural Development

Sector Plans:

- Urban Planning and Regional Development
- Housing
OUTCOME 15 (Cont’d)

- **Sector Goals:**
  - Comprehensive, efficient and effective planning system
  - National Land-use and development planning that guides physical development and optimizes scarce land resources
  - Liveable, equitable and ecologically sensitive communities
OUTCOME 15 (Cont’d)

STRATEGIES

- Create a comprehensive and efficient planning system
- Create an appropriate framework for sustainability planning
  - Integrate the principles of sustainability principles into land use planning and design
  - Integrate energy conservation into housing and transportation planning
  - Design and develop communities to be in harmony with the natural environment
  - Ensure that development decisions are guided by a spatial planning framework (National Spatial Plan)
  - Locate settlements in areas that minimize vulnerability to hazards
GOAL 3
JAMAICA’S ECONOMY IS PROSPEROUS

➤ Outcome 12:

*Internationally Competitive Industry Structures*

➤ Strategies:

- Promote eco-efficiency and the green economy
  - Encourage energy efficiency and conservation by service providers
  - Develop the capacity of local companies to meet international environmental standards
OUTCOME 12 (cont’d)

Strategies:

- Support the integration of environmental considerations into all functional management areas
- Address waster, emissions, water and energy in integrated sustainable planning for the productive sectors
- Promote green jobs and industries
- Encourage adoption of environmental management systems by productive enterprises
GOAL 3: OUTCOME 10

Outcome 10: Energy Security and Efficiency

Strategies:

- Develop energy diversification priorities in a timely way based on cost, efficiency, environmental considerations and appropriate technologies
- Develop and implement programmes to achieve set obligatory and non-obligatory targets for the percentage of renewables in the energy mix
GOAL 3: OUTCOME 10 (cont’d)

Strategies:

– Encourage energy efficiency and conservation by service providers
– Promote use of technology to reduce emissions
– Develop and implement environmental stewardship programmes in GOJ agencies
– Encourage greater energy efficiency and lower energy costs in the bauxite alumina and transport sectors
GOAL 3: OUTCOME 9

Outcome 9:

Strong Economic Infrastructure

Strategies:

- Ensure adequate and safe water supply and sanitation services
  - Implement integrated water resources management (IWRM) in an established institutional framework anchored in the Dublin and other related principles and informed by regional and national research findings
Strategies:

- Use participatory approaches to design, manage, maintain and protect watershed areas, catchments and networks
- Promote effective programmes for water conservation and prevention of contamination
- Introduce mechanisms towards equitable water allocation and to encourage recycling and reuse of industrial and domestic wastewater
GOAL 1:
Jamaicans are empowered to meet their fullest potential

Outcome 1:

A Healthy and Stable Population

Strategies:
- Strengthen the linkages between health and the environment
- Establish a comprehensive recovery system to mitigate food shortages resulting from natural and man-made hazards and emergency situations
Strategies

- Generate and sustain action across sectors to modify environmental determinants of health
- Infuse climate change issues into health policy
ACHIEVING THE VISION
## HOW DO WE ACHIEVE OUR VISION?

### Key Success Factors

<table>
<thead>
<tr>
<th>Transformational leadership</th>
<th>Effective monitoring and evaluation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Continuous alignment of sector and other strategies with national goals, outcomes &amp; priorities</td>
<td>Effective coordination, trust and accountability</td>
</tr>
<tr>
<td>An integrated planning and performance framework with linkages to the budget</td>
<td>Alignment of governance structures:</td>
</tr>
<tr>
<td></td>
<td>- Vision 2030 Jamaica</td>
</tr>
<tr>
<td></td>
<td>- National Planning Summit</td>
</tr>
<tr>
<td></td>
<td>- Partnership for Progress</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Greater involvement of private sector, NGO &amp; other civil society organizations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Developing positive values and attitudes</td>
</tr>
<tr>
<td>Active participation by all including persons in the Diaspora, in monitoring, implementation &amp; evaluation</td>
</tr>
<tr>
<td>Donor harmonisation and alignment</td>
</tr>
</tbody>
</table>
YOUR ROLE

➢ Familiarize with contents
➢ Share the information
➢ Focus on Positive Values and Attitudes
➢ Use to generate discussions on issues relating to Goals & Outcomes with individual and group actions
➢ Use to initiate activities in your homes, communities, work places, schools etc. (participate)

➢ BELIEVE
THANK YOU

Jamaica, the place of choice to live, work, raise families, and do business
